Response to Amendment

1. Applicant's amendment filed 06/09/2005 has been entered and carefully considered.

Claims 1, 4-5, and 12 have been amended.

Reasons for Allowance

2. Claims 1-14 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Please see the previous office action and applicant's argument filed on 06/09/2005.

Regarding claim 1, none of the prior art of record teaches or suggests the combination of a method of detecting the tire pressure loss in a vehicle, wherein the comprising steps of: detecting torsional vibrations of one or more wheels of the vehicle to produce an angular frequency spectrum in an angular frequency domain; mapping a peak frequency from the angular frequency spectrum in the angular frequency domain to time frequency domain; determining if the peak frequency in the time frequency domain changes over time; relating frequency changes to pressure loss in the one or more tires associated with the one or more wheels; and indicating the pressure loss to the driver of the vehicle. It is these limitations as they are claimed in the combination with other limitations of claim, which have not been found, taught or suggested in the prior art of record, that make these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
